

## ENDEAVOUR SILVER CORP.

### ANNUAL GENERAL MEETING OF SHAREHOLDERS

#### INFORMATION CIRCULAR

#### GENERAL INFORMATION

This Information Circular is furnished to the holders (“shareholders”) of Common shares (“Common Shares”) of Endeavour Silver Corp. (the “Company”) by management of the Company in connection with the solicitation of proxies to be voted at the annual general meeting (the “Meeting”) of the shareholders to be held at 10:00 a.m. (Vancouver time) on Thursday, May 8, 2014 and at any adjournment thereof, for the purposes set forth in the accompanying Notice of Meeting.

**All dollar (\$) amounts stated in this Information Circular refer to United States dollars, unless Canadian dollars (Cdn.\$) are indicated.** The noon rate of exchange on March 27, 2014 as reported by the Bank of Canada, for the conversion of U.S.\$1.00 into Canadian dollars was Cdn.\$1.1057 (Cdn\$1.00 equals U.S.\$0.9044).

#### PROXIES

##### Solicitation of Proxies

**The enclosed Proxy is solicited by and on behalf of management of the Company. The persons named in the enclosed Proxy form are management-designated proxyholders. A registered shareholder desiring to appoint some other person (who need not be a shareholder) to represent the shareholder at the Meeting may do so either by inserting such other person’s name in the blank space provided in the Proxy form or by completing another form of proxy.** To be used at the Meeting, proxies must be received by Computershare Investor Services Inc., Proxy Department, 100 University Avenue, 9th Floor, Toronto, Ontario M5J 2Y1 by 10:00 a.m. (Vancouver time) on May 6, 2014 or, if the Meeting is adjourned, by 10:00 a.m. (Vancouver time), on the second last business day prior to the date on which the Meeting is reconvened, or may be accepted by the chairman of the Meeting prior to the commencement of the Meeting. Solicitation will be primarily by mail, but some proxies may be solicited personally or by telephone by regular employees or directors of the Company at a nominal cost. The cost of solicitation by management of the Company will be borne by the Company.

##### Notice and Access Process

The Company has decided to take advantage of the notice-and-access provisions (“Notice and Access”) under the Canadian Securities Administrators’ National Instrument 54-101 (“NI 54-101”) for the delivery of the Information Circular to its shareholders for the Meeting. The use of the alternative Notice and Access procedures in connection with the Meeting helps reduce paper use, as well as the Company’s printing and mailing costs.

Under Notice and Access, instead of receiving printed copies of the Information Circular, shareholders receive a notice (“Notice and Access Notification”) with information on the Meeting date, location and purpose, as well as information on how they may access the Information Circular electronically or request a paper copy. The Company will arrange to mail paper copies of the Information Circular to those registered and beneficial shareholders who have existing instructions on their account to receive paper copies of the Company’s proxy-related materials.

## Non-Registered Holders

Only registered holders of Common Shares or the persons they appoint as their proxyholders are permitted to vote at the Meeting. In many cases, however, Common Shares beneficially owned by a holder (a “Non-Registered Holder”) are registered either:

- (a) in the name of an Intermediary (an “Intermediary”) that the Non-Registered Holder deals with in respect of the shares. Intermediaries include banks, trust companies, securities dealers or brokers, and trustees or administrators of self-administered RRSPs, RRIFs, RESPs and similar plans, or
- (b) in the name of a clearing agency (such as The Canadian Depository for Securities Limited (CDS)) of which the Intermediary is a participant.

In accordance with the requirements of NI 54-101 of the Canadian Securities Administrators, the Company has distributed the Notice and Access Notification in connection with this Meeting to Intermediaries and clearing agencies for onward distribution to Non-Registered Holders.

Intermediaries are required to forward proxy-related materials (including Notice and Access Notification) to Non-Registered Holders unless a Non-Registered Holder has waived the right to receive them. Intermediaries often use service companies to forward proxy-related materials to Non-Registered Holders. Generally, Non-Registered Holders who have not waived the right to receive proxy-related materials will be sent a voting instruction form which must be completed, signed and returned by the Non-Registered Holder in accordance with the Intermediary’s directions on the voting instruction form. In some cases, such Non-Registered Holders will instead be given a proxy which has already been signed by the Intermediary (typically by a facsimile, stamped signature) which is restricted as to the number of Common Shares beneficially owned by the Non-Registered Holder but which is otherwise not completed. This form of proxy does not need to be signed by the Non-Registered Holder, but, to be used at the Meeting, needs to be properly completed and deposited with Computershare Investor Services Inc. as described under “Solicitation of Proxies”.

The purpose of these procedures is to permit Non-Registered Holders to direct the voting of the Common Shares that they beneficially own. Should a Non-Registered Holder wish to attend and vote at the Meeting in person (or have another person attend and vote on behalf of the Non-Registered Holder), the Non-Registered Holder should strike out the names of the persons named in the proxy and insert the Non-Registered Holder’s (or such other person’s) name in the blank space provided or, in the case of a voting instruction form, follow the corresponding instructions on the form.

**Non-Registered Holders should carefully follow the instructions of their Intermediaries and their service companies, including instructions regarding when and where the voting instruction form or Proxy form is to be delivered.**

## Revocation of Proxies

A registered shareholder who has given a Proxy may revoke it by an instrument in writing that is

- (a) received at the registered office of the Company (19th Floor, 885 West Georgia Street, Vancouver, British Columbia V6C 3H4) at any time up to and including the last business day before the day set for the holding of the meeting at which the proxy is to be used, or
- (b) provided to the chair of the meeting, at the meeting of shareholders, before any vote in respect of which the proxy is to be used shall have been taken.

or in any other manner provided by law.

Non-Registered Holders who wish to revoke a voting instruction form or a waiver of the right to receive proxy-related materials should contact their Intermediaries for instructions.

### **Voting of Proxies**

Common Shares represented by a shareholder's Proxy form will be voted or withheld from voting in accordance with the shareholder's instructions on any ballot that may be called for at the Meeting and, if the shareholder specifies a choice with respect to any matter to be acted upon, the Common Shares will be voted accordingly. **In the absence of any instructions, the proxy agent named on the Proxy form will cast the shareholder's votes in favour of the passage of the resolutions set forth herein and in the Notice of Meeting.**

The enclosed Proxy form confers discretionary authority upon the persons named therein with respect to (a) amendments or variations to matters identified in the Notice of Meeting and (b) other matters which may properly come before the Meeting or any adjournment thereof. At the time of printing of this Information Circular, management of the Company knows of no such amendments, variations or other matters to come before the Meeting other than the matters referred to in the Notice of Meeting.

### **VOTING SHARES AND PRINCIPAL HOLDERS THEREOF**

Only Common Shares without par value of the Company ("Common Shares") carry voting rights at the Meeting with each Common Share carrying the right to one vote. The Board of Directors of the Company (the "Board of Directors" or "Board") has fixed March 24, 2014 as the record date (the "Record Date") for the determination of shareholders entitled to notice of and to vote at the Meeting and at any adjournment thereof, and only shareholders of record at the close of business on that date are entitled to such notice of and to vote at the Meeting. As of the Record Date, 101,255,314 Common Shares were issued and outstanding as fully paid and non-assessable. A complete list of the shareholders entitled to vote at the Meeting will be open to examination by any shareholder for any purpose germane to the Meeting, during ordinary business hours for a period of 10 days prior to the Meeting, at the office of Computershare Investor Services Inc. at 510 Burrard Street, Vancouver, British Columbia V6C 3B9.

To the knowledge of the directors or executive officers of the Company, no person beneficially owns, directly or indirectly, or exercises control or direction over shares carrying more than 10% of the voting rights attached to the Company's issued and outstanding Common Shares as at the Record Date, except for the following:

<b>Name</b>	<b>Number of Common Shares</b>	<b>Percentage of Outstanding Common Shares</b>
Van Eck Associates Corporation <sup>(1)</sup>	10,388,812	10.3%

(1) Based on public filings on SEDAR ([www.sedar.com](http://www.sedar.com)), Van Eck Associates Corporation reports that it is an investment manager and accounts over which it has investment authority hold, in the aggregate, the Common Shares disclosed above.

### **VOTES NECESSARY TO PASS RESOLUTIONS**

The Company's articles provide that a quorum for the transaction of business at a meeting of shareholders is two persons who are, or who represent by proxy, shareholders who, in the aggregate, hold at least 5% of the

issued shares entitled to be voted at the Meeting. A simple majority of the votes cast at the Meeting (in person or by proxy) is required in order to pass the resolutions referred to in the accompanying Notice of Meeting.

### APPOINTMENT OF AUDITOR

The persons named in the enclosed Proxy Form intend to vote for the appointment of KPMG LLP, Chartered Accountants, as the auditor of the Company to hold office until the next annual general meeting of shareholders. It is proposed that the remuneration to be paid to the auditor be fixed by the directors of the Company.

### ELECTION OF DIRECTORS

The shareholders of the Company last fixed the number of directors of the Company at seven. At the Meeting, shareholders will be asked to elect seven directors.

The persons named below are the seven nominees of management for election as directors, all of whom are current directors of the Company. Each director elected will hold office until the next annual general meeting or until his successor is elected or appointed. It is the intention of the persons named by management as proxyholders in the enclosed proxy form to vote for the election to the Board of Directors of those persons hereinafter designated as nominees for election as directors. The Board of Directors does not contemplate that any of such nominees will be unable to serve as a director; however, if for any reason any of the proposed nominees do not stand for election or are unable to serve as such, **proxies in favour of management designees will be voted for another nominee in their discretion unless the shareholder has specified in the shareholder's proxy form that the shareholder's shares are to be withheld from voting in the election of directors.**

The following table sets out the name of each of the persons proposed to be nominated for election as a director; all positions and offices in the Company presently held by him; his present principal occupation, business or employment; the period during which he has served as a director; and the number of Common Shares that he has advised are beneficially owned, or controlled or directed, directly or indirectly, as at the Record Date.

Pursuant to the Advance Notice Policy of the Company adopted by the Board of Directors on April 11, 2013, subject to shareholder approval which was obtained on May 22, 2013, any additional director nominations for the Meeting must be received by the Company in compliance with the Advance Notice Policy by April 7, 2014. The Company will publish details of any such additional director nominations through a public announcement in accordance with the Advance Notice Policy.

### **Majority Voting Policy**

The Board of Directors has adopted a Majority Voting Policy for the election of directors in uncontested elections. Under this policy, if a nominee does not receive the affirmative vote of at least the majority of votes cast, the director shall promptly tender a resignation for consideration by the Corporate Governance and Nominating Committee and the Board. The Corporate Governance and Nominating Committee shall consider the resignation and recommend to the Board the action to be taken with respect to such offered resignation, which may include: accepting the resignation, maintaining the director but addressing what the Corporate Governance and Nominating Committee believes to be the underlying cause of the withheld votes, resolving that the director will not be re-nominated in the future for election, or rejecting the resignation and explaining the basis for such determination. Further to Toronto Stock Exchange (“TSX”) rules that will become effective June 30, 2014, the Board shall accept such director’s resignation absent exceptional circumstances.

The Corporate Governance and Nominating Committee in making its recommendation, and the Board in making its decision, may consider any factors or other information they consider appropriate and relevant. Any director who tenders his resignation pursuant to the Majority Voting Policy may not participate in the recommendation of the Corporate Governance and Nominating Committee or the decision of the Board with

respect to his resignation. The Board will act on the recommendation of the Corporate Governance and Nominating Committee within 90 days after the shareholder meeting at which the election of directors occurred. Following the Board's decision, the Company will promptly issue a press release disclosing the Board's determination (and, if applicable, the reasons for rejecting the resignation).

If the Board accepts any tendered resignation in accordance with the Majority Voting Policy, then the Board may (i) proceed to fill the vacancy through the appointment of a new director, or (ii) determine not to fill the vacancy and instead decrease the size of the Board. If a director's resignation is not accepted by the Board, such director will continue to serve until the next annual meeting and until his successor is duly elected, or his earlier resignation or removal; alternatively, the director shall otherwise serve for such shorter time and under such other conditions as determined by the Board, considering all of the relevant facts and circumstances.

### **Cease Trade Orders, Bankruptcies, Penalties or Sanctions**

Other than as disclosed herein, none of the proposed directors is, as at the date of this Information Circular, or has been, within the 10 years preceding the date of this Information Circular, a director, chief executive officer or chief financial officer of any company (including the Company) that

- (a) was subject to a cease trade or similar order or an order that denied the relevant company access to any exemption under securities legislation that was in effect for a period of more than 30 consecutive days (collectively, an "Order"), when such Order was issued while the person was acting in the capacity of a director, chief executive officer or chief financial officer of the relevant company; or
- (b) was subject to an Order that was issued after such person ceased to be a director, chief executive officer or chief financial officer of the relevant company, and which resulted from an event that occurred while the person was acting in the capacity of a director, chief executive officer or chief financial officer of the relevant company.

Other than as disclosed herein, no proposed director is, as at the date of this Information Circular, or has been, within the 10 years preceding the date of this Information Circular, a director or executive officer of any company (including the Company) that, while that person was acting in that capacity, or within a year of that person ceasing to act in that capacity, became bankrupt, made a proposal under any legislation relating to bankruptcy or insolvency or was subject to or instituted any proceedings, arrangement or compromise with creditors or had a receiver, receiver manager or trustee appointed to hold its assets.

No proposed director has, within the 10 years preceding the date of this Information Circular, become bankrupt, made a proposal under any legislation relating to bankruptcy or insolvency, or become subject to or instituted any proceedings, arrangement or compromise with creditors, or had a receiver, receiver manager or trustee appointed to hold the assets of that person.

Other than as disclosed herein, no proposed director has been subject to (a) any penalties or sanctions imposed by a court relating to securities legislation or by a securities regulatory authority or has entered into a settlement agreement with a securities regulatory authority, or (b) any other penalties or sanctions imposed by a court or regulatory body that would likely be considered important to a reasonable securityholder in deciding whether to vote for a proposed director.

Ricardo Campoy, a director of the Company, was a director of Century Mining Corporation ("Century") when he was subject to a management cease trade order (the "MCTO") issued by the British Columbia Securities Commission ("BCSC") on March 20, 2008. The BCSC had issued a cease trade order on March 14, 2008 with respect to the shares of Century based on inadequacies in a National Instrument 43-101 technical report filed by Century and in Century's financial reports for the third quarter of 2007. On March 20, 2008, the BCSC revoked

the cease trade order and imposed instead the MCTO in order to give Century time to comply with the issues cited in the cease trade order. All of those issues were resolved upon Century's filing of required technical reports and third quarter 2007 financial disclosures. The MCTO remained in place until the filing of Century's audited annual financial statements and management's discussion and analysis for its 2007 financial year and was eventually revoked on July 18, 2008.

Mario Szotlender, a director of the Company, was a director of Focus Ventures Ltd. ("Focus") that was the subject of a cease trade order for a period of more than 30 consecutive days from each of BCSC and the Alberta Securities Commission. The cease trade orders were issued on April 28, 2004 as a result of Focus' failure to file its annual financial statements within the prescribed deadline and, upon Focus' filing of the outstanding documents, such orders were revoked on June 2, 2004 and June 11, 2004, respectively. Also in the past 10 years, the United States Securities and Exchange Commission ("SEC") revoked Focus' registration under Section 12(g) of the United States Securities Exchange Act of 1934 for failure to keep its filings with the SEC up-to-date. Upon receipt of the SEC's notice of the proposed revocation, Focus filed a settlement agreement with the SEC consenting to the revocation as the company was dormant.

Geoffrey Handley was a director of Mirabela Nickel Limited ("Mirabela") until January 11, 2014. On February 25, 2014, within a year of Mr. Handley ceasing to be a director, Mirabela announced that it had entered into a legally binding plan support agreement ("PSA") which establishes a framework for a proposed recapitalization of Mirabela, subject to certain terms and conditions, as well as the appointment of certain persons of KordaMentha, a restructuring firm, as joint and several voluntary administrators under the Australian Corporations Act 2001. Mirabela also announced that, under the PSA, the proposed recapitalization will be effected through a recapitalization and restructuring plan to be implemented through a deed of company arrangement in Australia and an extrajudicial reorganization proceeding to be filed by Mirabela Brazil before the competent Brazilian court. Trading in securities of Mirabela on the Australian Securities Exchange has been suspended since October 2013.

## **CORPORATE GOVERNANCE DISCLOSURE**

The Canadian Securities Administrators have adopted National Instrument 58-101 on "Disclosure of Corporate Governance Practices" ("NI 58-101") which requires issuers to disclose on an annual basis their corporate governance practices in accordance with NI 58-101. Corporate governance disclosure of the Company is set out in Appendix A to this Information Circular.

## **COMPENSATION OF EXECUTIVE OFFICERS AND DIRECTORS**

### **Executive Compensation**

Set out below are particulars of compensation paid to the following persons (the "Named Executive Officers" or "NEOs"):

- (a) the Company's Chief Executive Officer ("CEO");
- (b) the Company's Chief Financial Officer ("CFO");
- (c) each of the three most highly compensated executive officers of the Company, or the three most highly compensated individuals acting in a similar capacity, other than the CEO and CFO, at the end of the Company's most recently completed financial year whose total compensation was, individually, more than Cdn.\$150,000 for that financial year; and

- (d) each individual who would be an NEO under paragraph (c) but for the fact that the individual was neither an executive officer of the Company, nor acting in a similar capacity, at the end of that financial year.

During the Company’s financial year ended December 31, 2013, the NEOs of the Company were Bradford J. Cooke (CEO), Daniel Dickson (CFO), Godfrey Walton (President and Chief Operating Officer (“COO”)), David Howe (Vice President Operations, Mexico (“VP Mexico Operations”)) and Luis Castro (Vice President, Exploration (“VP Exploration”)).

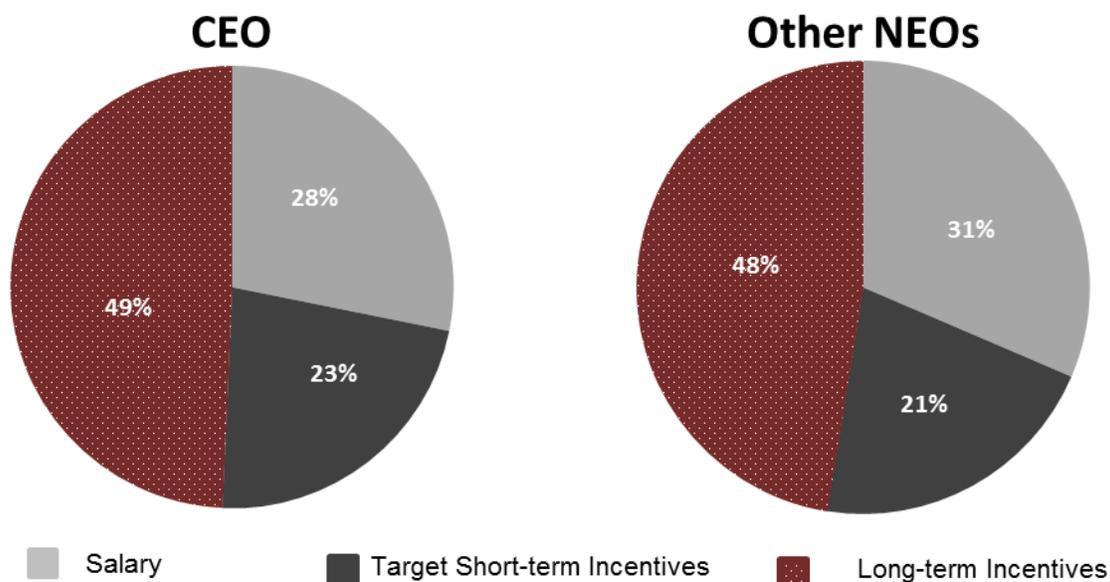

**Compensation Discussion and Analysis**

**General**

The Company’s executive compensation program is overseen by the Compensation Committee of the Board of Directors (“Compensation Committee”). In carrying out this mandate, the Compensation Committee assesses on an annual basis the performance of the CEO against established objectives and reviews performance reports submitted for other executive officers.

The Company’s executive compensation program is based on a pay-for-performance philosophy. The executive compensation program is designed to encourage, compensate and reward employees on the basis of individual and corporate performance, both in the short and the long term. Base salaries are targeted within a 20% range of 50th percentile to be competitive with the base salaries paid by benchmarked mining companies with comparable revenues and asset bases to that of the Company (see “Base Salary”).

Total direct compensation (“Total Direct Compensation”) for each of the NEOs, as well as for executive officers as a whole, consists of a Base Salary, along with short term incentive compensation in the form of an annual bonus, and a longer-term incentive in the form of stock options. The targeted Short Term Incentive Plan (“STIP”) and Long Term Incentive compensation (“LTI”) are directly tied to corporate and individual performance. Total Direct Compensation is targeted at 75th percentile of the benchmarked mining companies. Actual compensation is positioned above or below target as performance warrants. As an executive officer’s level of responsibility increases, a greater percentage of total compensation is based on performance (as opposed to base salary and standard employee benefits) and the mix of total compensation shifts towards stock options, thereby increasing the mutuality of interest between executive officers and shareholders.

No NEO or director is permitted to purchase any financial instruments (such as prepaid variable forward contracts, equity swaps, collars, or units of exchange funds) designed to hedge or offset a decrease in the market value of the equity-based securities granted as compensation or held, directly or indirectly, by the NEO or director.

The Compensation Committee and the Board have considered the implications of risks associated with the Company's compensation policies and practices. Among other things, in designing compensation programs, setting objectives, and making incentive awards, the Compensation Committee carefully consider potential risks. During 2013, the Compensation Committee discussed the potential risks associated with compensation programs as they relate to short term and long term decision-making by the Company's executives. A number of business risks were assessed and considered, while significant items included:

- Achieving safety results and meeting environmental requirements
- Resource estimation and reserve determination
- Achievement of annual production and cost targets in balance with long-term development requirements at our operations

The risk analysis also included a review of the pay mix across incentive plans, plan metrics, plan funding, award time horizons, historical and future payout scenarios, and control features. As a result of the review, neither the Compensation Committee nor the Board identified any compensation practices that are reasonably likely to have a material adverse effect on the Company. The design of compensation programs and Board oversight provide a number of controls to mitigate compensation risks, including the following:

- ***Appropriate balance of metrics and weightings:*** Short-term incentive program objectives include a balance of growth, safety, and operating performance and are approved by the compensation committee, providing a balanced focus on immediate objectives without sacrificing the growth required to sustain the business. Base salaries are market competitive, thus reducing an over-reliance on variable compensation.
- ***Audit of key measurable balances:*** Significant targets involving estimates are verifiable by external parties, while measurable inputs are disclosed and assessed by the committee when necessary.
- ***Mix of short and long-term incentives:*** Incentive awards include a mix of annual and long-term awards which vest over time.
- ***Funding of incentive programs:*** The short-term incentive program is funded with current cash. The long-term incentive program is funded by the issuance of options. Both the short and long-term incentive programs may be changed, amended or suspended at any time at the Board's sole discretion. Our stock option plan limits the number of compensation shares that may be issued.
- ***Control features/plan governance:*** Goals and metrics are reviewed by the committee and approved by the Board. Final award payout levels and cash incentives to key executives for 2013 were reviewed by the compensation committee and approved by the Board, either of which may have exercised their discretion to alter the award amounts.
- ***Time horizon of payments or realization of value:*** Short-term incentive awards for 2013 were made in March 2014, following the performance year. The 2013 long-term incentive program option awards vest over two years and have life of five years. The recipients of these awards realize an increase or decrease in value based on share price.
- ***Restrictions on hedging and derivative trading:*** Company's executives are prohibited from engaging in hedging or derivative trading with our securities.

## ***Base Salary***

The level of base salary for each management employee within a specified range is determined by the level of past performance, as well as by the level of responsibility and the importance of the position to the Company. The Compensation Committee prepares recommendations for the Board with respect to the base salary to be paid to the CEO and other senior executive officers. For 2013, the Compensation Committee retained Towers Watson to provide independent analysis in order to support the Compensation Committee's process and analysis on executive and director compensation. Towers Watson benchmarked the competitiveness of the compensation arrangements for the Company's executives and directors against a peer group of mining companies with similar qualitative and quantitative operating characteristics. The 24 companies in the benchmark group are:

Alexco Resource Corporation	Denison Mines Corp.	Lake Shore Gold Corp.
Alamos Gold Inc.	First Majestic Silver Corp.	North American Palladium Ltd.
Argonaut Gold Inc.	Fortuna Silver Mines Inc.	Primero Mining Corp.
AuRico Gold Inc.	Gold Resource Corp.	Silver Standard Resources Inc.
Aurizon Mines Ltd.	Great Panther Silver Ltd.	Stillwater Mining Co.
B2gold Corporation	Hecla Mining Ltd.	Taseko Mines Ltd.
Coeur d'Alene Mines Inc.	Imperial Metals Corp.	Timmins Gold Corp.
Capstone Mining Corp.	Kirkland Lake Gold Inc.	Yukon-Nevada Gold Corp.

Based on this market analysis, the NEOs' base salaries were positioned close to the 50th percentile on average.

## ***Short Term Incentive Plan***

The Compensation Committee annually evaluates performance and allocates an amount for payment of bonuses to executive officers and senior management. The STIP is designed to provide for annual cash awards based on corporate and operational results when measured against predetermined objectives and performance measures. The bonus also includes an individual performance factor which allows the Company to effectively recognize and reward those individuals providing an extraordinary contribution to the Company during the year. The objectives of the STIP are to align the individual contribution with Company objectives, communicate key objectives which are most highly valued and reward senior management for achieving objectives commensurate with the business and operational results of the Company.

The STIP is based on a formula which includes:

1. Target Eligible Bonus
2. Corporate and Department Percent Target Award Levels ("Percent Target Award Levels")
3. Individual Performance Factor

The award formula is as follows:

$$\begin{array}{|c|} \hline \text{Short-term} \\ \text{Incentive} \\ \text{Award} \\ \hline \end{array} = \begin{array}{|c|} \hline \text{Target} \\ \text{Eligible} \\ \text{Bonus} \\ \hline \end{array} \times \begin{array}{|c|} \hline \text{Percent} \\ \text{Target} \\ \text{Award} \\ \text{Level} \\ \hline \end{array} \times \begin{array}{|c|} \hline \text{Individual} \\ \text{Performance} \\ \text{Factor} \\ \hline \end{array}$$

The Target Eligible Bonuses for the NEOs for the 2013 and 2014 performance years were as follows:

Position	2013 Target Eligible Bonus (% of Base Salary)	2014 Target Eligible Bonus (% of Base Salary)
CEO	80%	80%
CFO	70%	70%
COO	80%	80%
VP Mexico Operations	60%	60%
VP Exploration	50%	50%

The Percent Target Award Level is based on combined corporate and department goals for the Company. The achievement for corporate and department goals can range from 0% to 200% of the target weighting, depending on the specific goals and actual performance relative to target. In aggregate, the maximum achievement for the corporate and department goals is 150% of the target weighting. In addition, the STIP allows the Compensation Committee to identify any unforeseen matters or specific accomplishments and include a factor up to 75% weighting (“other corporate goals”). Therefore, the overall maximum Percent Target Award Level is 225% of the target weighting (150% + 75%).

The Individual Performance Factors represent a multiplier on the overall STIP award and are determined by the Committee and take into consideration the following the individuals performance, department performance, overall impact to the Company results.

The specific corporate and department goals with corresponding weighting and achievement for 2013 were as follows:

<u>Department Goals</u>	<u>Weighting</u>	<u>Target</u>	<u>Achievement</u>

Other corporate goals	-	-	13.5%
<b>Target Weighting</b>	<b>100%</b>	<b>Percent Target Award Level</b>	<b>75.0%</b>

- (1) Cash costs per ounce and costs per tonne are non-IFRS measures commonly reported in the silver and gold mining industry as benchmarks of performance, but they do not have standardized meanings prescribed by IFRS and therefore may not be comparable to similar measures presented by other issuers. Cash costs per ounce and direct costs per tonne are provided to investors and used by management as a measure of the Company's operating performance. See the Company's management's discussion and analysis for the year ended December 31, 2013 filed at [www.sedar.com](http://www.sedar.com) for further information.

For 2013, the executive team achieved a Percent Target Award Level of 75.0% (as indicated in the table above). The Percent Target Award Level includes the Committee's assessment of an additional achievement weighting of 13.5% ("other corporate goals"), reflecting management's decision to reduce exploration expenditures and mine development expenditures in response to the sharp decline in silver and gold prices. The Compensation Committee recognized this decision directly impacted the Company's ability to meet certain targets.

The Compensation Committee approved a special bonus specific to the completion of the El Cubo plant refurbishment. The Compensation Committee approved the short term incentive due to the critical time constraint and recognized the project was outside of the normal STIP scope. Based on 2012 salaries and target bonuses, Towers Watson recommended a special bonus totalling \$773,000 to be paid on a proportional basis. The proportion of the total award was weighted on the expected contribution to the project for each individual. On successful completion of the El Cubo plant refurbishment, the special bonus was paid proportionally as follows:

Position	Special Bonus (% of Bonus)	Amount Paid
CEO	12.5%	\$96,625
CFO	7.5%	\$57,975
COO	22.5%	\$173,925
VP Mexico Operations	47.5%	\$367,175
VP Exploration	5.0%	\$38,650
Other Management	5.0%	\$38,650

### ***Option-based Awards***

The Compensation Committee oversees the administration of the Stock Option Plan of the Company (the "Stock Option Plan"). The Stock Option Plan is designed to give eligible directors, officers, employees and consultants of the Company or its subsidiaries an interest in preserving and maximizing shareholder value in the longer term, to enable the Company to attract and retain individuals with experience and ability, and to provide a sense of company ownership to the individual. The Compensation Committee considers stock option grants when reviewing executive officer compensation packages as a whole.

Management evaluates the Company's performance based on the corporate goals established and vetted by the Compensation Committee and approved by the Board of Directors. The option distribution is recommended by senior management to the members of the Compensation Committee who decide whether they agree with management's recommendations and who, once satisfied, provide their recommendation to the Board of Directors. The amount of options recommended for each individual is based upon seniority, responsibilities of the job position and the performance of the Company. Previous option grants to an optionee are not taken into account when considering new option grants to the optionee. The Compensation Committee's recommendation to the Board of Directors includes the number of options to be granted to independent directors and these options are typically issued once a year. The stock options generally have a term of five years and vest 20% every six months, beginning on the date of grant.

During 2013, Towers Watson assessed the market competitiveness of Total Direct Compensation for the Company's NEOs, including LTI compensation. It was recommended the LTI compensation be targeted as a percentage of Total Target Cash ("TTC"), which includes base salary and target bonus. The 2013 LTI compensation was targeted as follows:

Position	2013 Target LTI Compensation (% of TTC)	2014 Target LTI Compensation (% of TTC)
CEO	175%	175%
CFO	150%	150%
COO	165%	165%
VP Mexico Operations	150%	150%
VP Exploration	125%	125%

The Stock Option Plan presently includes the following provisions:

- The Stock Option Plan provides for the issuance of options to directors, executive officers employees, and consultants of the Company and its subsidiaries to purchase Common Shares of the Company. Options are issued at the discretion of a committee of the Company's Board of Directors, which is presently the Compensation Committee.
- The number of Common Shares to be reserved and authorized for issuance pursuant to options granted under the Stock Option Plan is 7.5% of the issued and outstanding Common Shares at any time and from time to time.
- The number of Common Shares reserved for issuance to insiders pursuant to options granted under the Stock Option Plan and issuable to insiders under any security based compensation arrangements of the Company may not exceed 10% of the outstanding number of Common Shares at any time (unless disinterested shareholder approval has been obtained).
- The issuance to insiders of the Company, within any 12-month period, of Common Shares pursuant to the Stock Option Plan and any other security based compensation arrangements of the Company may not exceed 10% of the outstanding number of Common Shares (unless disinterested shareholder approval has been obtained).
- The number of Common Shares under option at any specific time to any one optionee may not exceed 5% of the issued and outstanding number of Common Shares (determined at the date the option was granted) in any 12-month period (unless disinterested shareholder approval has been received).
- The exercise price per Common Share that may be purchased upon the exercise of an option will not be lower than the "Market Price" of the Common Shares which, under the Stock Option Plan, is the last closing price of the Common Shares on TSX before the date of the option granted.
- An optionee may, if allowed under TSX policies and if determined by the Board of Directors of the Company, have a share appreciation right (the "Right") when entitled to exercise an option. The Right may be exercised to terminate the option in whole or in part by notice in writing to the Company and, in lieu of receiving Common Shares pursuant to the exercise of the option, to receive instead and at no cost to the participant that number of Common Shares, disregarding fractions, which, when multiplied by the Market Price on the day immediately prior to the exercise of the Right, have a total value equal to the product of that number of Common Shares subject to the option times the difference between the Market Price on the day immediately prior to the exercise of the Right and the option exercise price. The Right will not exist until the Board of Directors of the Company formally approves the activation of the Right.
- Options granted may have a vesting period as required by the Board of Directors on a case-by-case basis.

- Options may be granted for a term not exceeding 10 years.
- An option granted to a person who is a director, employee, consultant or executive officer shall normally terminate no longer than 30 days after such person ceases to be in at least one of those categories. The Compensation Committee may, however, also set termination periods as it deems appropriate, subject to all applicable laws and TSX policies. Any option or portions of options of terminated individuals not so exercised will terminate and will again be available for future options under the Plan. A change of employment will not be considered a termination so long as the optionee continues to be employed by the Company or its subsidiaries.
- An option may not be assigned or transferred. During the lifetime of an optionee, the option may be exercised only by the optionee.
- In the event of the death of an optionee, unexercised options held by such optionee may be exercised by the optionee's personal representatives, heir or legatees until the earlier of 60 days of the grant of probate or similar documents and one year from the date of death (notwithstanding the normal expiry date of the option).
- The Board of Directors of the Company may alter, suspend or discontinue the Stock Option Plan at any time without shareholder approval if and when it is advisable in the absolute discretion of the Board of Directors, subject to obtaining shareholder approval for any increase in the aggregate number of Common Shares subject to options under the Stock Option Plan and disinterested shareholder approval for any reduction in the exercise price of an option held by an insider of the Company.

The Company does not provide any financial assistance to optionees in order to facilitate the purchase of Common Shares issuable pursuant to the exercise of options granted under the Stock Option Plan.

The policies of the TSX require that the unallocated securities under all security based compensation arrangements which do not have a fixed maximum aggregate number of securities issuable thereunder (such as the Stock Option Plan) be re-approved by an issuer's shareholders every three years after the date of initial shareholder approval of the compensation arrangement. At the annual general meeting held on May 23, 2012, shareholders of the Company reconfirmed the Stock Option Plan, as amended, by approving the unallocated options that may be grantable thereunder.

As at the date hereof, the total number of Common Shares issuable under outstanding options granted under the Stock Option Plan is 5,380,550, representing 5.3% of the issued and outstanding Common Shares of the Company.

### ***Compensation Governance***

The Compensation Committee is comprised of four independent directors, Ricardo Campoy (Chair), Geoffrey Handley, Mario Szotlender and Kenneth Pickering. Messrs. Campoy, Handley, Szotlender and Pickering have human resource and compensation experience relevant to oversee and advise on the Company's executive compensation practices.

The Compensation Committee members have the necessary experience to enable them to make decisions on the suitability of the Company's compensation policies or practices. The members have either in the past served or currently serve on compensation committees of other public mining companies.

The Compensation Committee's responsibilities, powers and operation are described in Appendix A - "Corporate Governance Disclosure" under the subheading, "Compensation".

In June 2012, the Compensation Committee retained Towers Watson to assist with assessing the market competitiveness of executive and director compensation, including providing recommendations to improve the

compensation program. Other than the extension of the Company's engagement of Towers Watson to assess 2013 compensation levels, Towers Watson has not been retained for any other services by the Company.

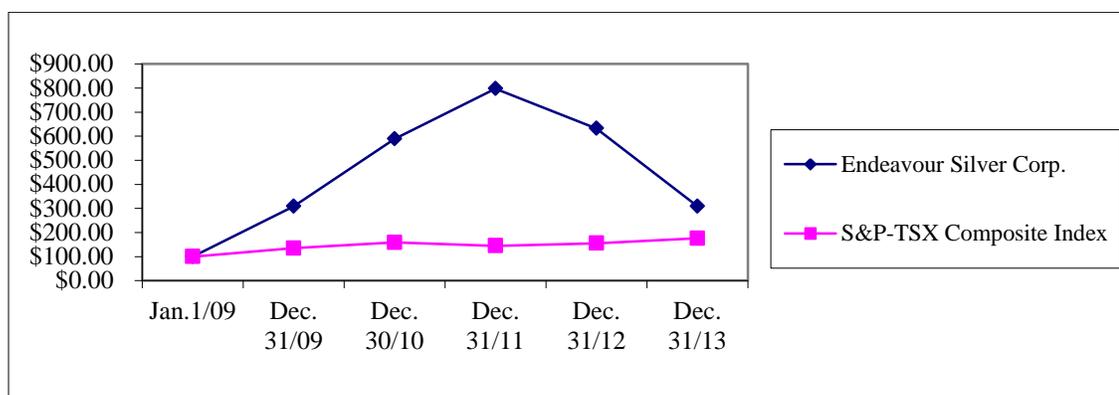

The following table sets forth, by category, the aggregate fees billed by each compensation consultant or advisor retained by the Company for each of the financial years ended December 31, 2013 and December 31, 2012:

#### Executive Compensation-Related Fees

	Executive compensation-related fees (Cdn.\$)	All other fees

Year ended December 31, 2012	\$72,649	Nil

#### Performance Graph

The following graph compares the total cumulative shareholder return for Cdn.\$100 invested in Common Shares of the Company for the period from January 1, 2009 at the opening of trading to December 31, 2013 with the cumulative total return of the S&P/TSX Composite Index. Dollar amounts in the following graph refer to Canadian dollars (Cdn.\$).

	Jan. 1/09 (Cdn.\$)	Dec. 31/09 (Cdn.\$)	Dec. 31/10 (Cdn.\$)	Dec. 31/11 (Cdn.\$)	Dec. 31/12 (Cdn.\$)	Dec. 31/13 (Cdn.\$)
Endeavour Silver Corp.	\$100.00	\$308.87	\$588.71	\$797.58	\$632.26	\$309.68
S&P-TSX Composite Index	\$100.00	\$135.05	\$158.83	\$145.00	\$155.42	\$175.61

The trend shown by this graph reflects the trend in the Company's executive compensation for 2009 through 2011. During this period, the prices of precious metals rose significantly, resulting in an increased demand throughout the industry for experienced management. The consequence of the increased demand for experienced management has been higher labour costs in the industry and the Company's executive compensation was designed to retain experienced management by basing salaries upon industry salary surveys. The trend shown by this graph does not reflect the trend in the Company's compensation to executive officers for 2012 and 2013. Compensation increased during 2012 as both a reflection of the continued increase in demand for experienced management and the growth experienced by the Company. In 2013, the Company retained Towers Watson, an external advisory firm, to benchmark management compensation resulting in adjustments to appropriately position executive compensation amongst its peers. The benchmarking resulted in higher STIP and LTI incentives marginally increasing total compensation, while the share performance was directly correlated with the fall in precious metal prices during 2013. The grant date value of long-term

incentives as summarized in the Summary Compensation Table make up a significant portion to total compensation for the NEOs. The ultimate value to be realized from the long-term incentives is directly linked to share price performance.

### *Employment Agreements / Termination and Change of Control Benefits*

During the year ended December 31, 2013, the Company had employment agreements or arrangements which include change of control provisions with each of Bradford Cooke, Daniel Dickson, Godfrey Walton and David Howe and which have been approved by the Board of Directors. The change of control provisions recognize the critical nature of these positions and the individuals involved and the requirement to protect the individuals from disruption to their employment in the event of a change of control of the Company. The change of control provisions are designed to treat the individuals in a manner consistent with industry standards for executives in similar positions.

If a change of control of the Company had occurred on December 31, 2013, the total cost to the Company of related payments to the NEOs is estimated at Cdn.\$5,271,909 (U.S.\$4,929,762). The table below summarizes the estimated incremental payments related to various termination scenarios assuming the events occurred on December 31, 2013. Further details of the provisions for each NEO are described after the table. The Cooke Agreement is for an indefinite term and contains provisions regarding base salary, short-term incentives, paid vacation time, eligibility for benefits and security based compensation. The Cooke Agreement also contains confidentiality provisions of indefinite application. This amount assumes the entire prior year's bonus would be paid. In the event of resignation or termination within six months of a change in control, Mr. Cooke is entitled to receive an amount equal to twice his estimated annual salary and vacation pay at the time of termination plus the amount of the previous two years' annual bonus and any outstanding stock options will remain in good standing for 12 months. The Cooke Agreement also contains non-competition and non-solicitation clauses effective during the term of employment.

## **Director Compensation**

### ***Discussion of Directors’ Compensation***

Up until 2013, the non-executive directors of the Company were primarily compensated by way of directors’ fees and stock options. In 2013, deferred share units (“DSUs”, as described below) were granted to certain non-executive directors who elected to receive DSUs in lieu, in whole or part, of stock options and director’s fees otherwise receivable.

### ***Deferred Share Unit Plan***

In May 2013, the Board established a Deferred Share Unit Plan (the “DSU Plan”). The purposes of the DSU Plan are to promote a greater alignment of interests between non-employee directors and the shareholders of the Company and to provide a compensation system for non-employee directors that, together with any other compensation mechanisms of the Company, reflects the responsibility, commitment and risk accompanying Board membership.

The Board may, at its complete discretion, award such number of DSUs to an eligible director to provide appropriate equity-based compensation for the services the director renders to the Company. Unless otherwise determined by the Board, DSUs vest immediately and a director's entitlement to payment of such DSUs is not subject to satisfaction of any requirements as to any minimum period of membership on the Board.

DSUs are paid in cash upon termination, which is deemed to occur on the earliest of (i) the date of voluntary resignation or retirement of the director from the Board; (ii) the date of death of the director; and (iii) the date of removal of the director from the Board whether by shareholder resolution, failure to achieve re-election or otherwise, and on which date the director is not an employee or director of the Company or any of its affiliates.

Notwithstanding any vesting conditions that the Board may have established in respect of a grant of DSU, upon the occurrence of a change of control, all outstanding DSUs will become fully vested.

### ***Retainer Fees***

During 2013, the Board, on recommendation of the Compensation Committee, approved directors' fees as follows, payable in cash or in equivalent value of DSUs as at the grant date determined by the Board:

Director Compensation	Cdn.\$	
Independent Board Member	30,000	Annual Retainer
Additional Retainer for Chairman of the Board	20,000	Annual Retainer
Additional Retainer for Chairman of the Audit Committee	15,000	Annual Retainer
Additional Retainer for Chairman of the Corporate Governance Committee	5,000	Annual Retainer
Additional Retainer for Chairman of the Compensation Committee	5,000	Annual Retainer
Additional Retainer for Chairman of the Sustainability Committee	5,000	Annual Retainer
Board Member Meeting Fee	1,300	Per meeting
Committee Member Meeting Fee	1,000	Per meeting

The Company has no pension plan or other arrangement for non-cash compensation to the Directors, except incentive stock options.

In support of our goal of aligning director and shareholder interests and discourage undue and excessive risk, all the Company's directors must meet minimum share ownership requirements. The required holdings may be satisfied through holdings of Common Shares or outstanding DSUs. The director share ownership guideline is to maintain the guideline amount at double the directors' annual retainer. The directors must acquire at least \$60,000 in Common Shares and/or DSUs by November 2017 or within five years of being elected.

The accounting fair value is based on the total number of DSUs granted times the December 31, 2013 market price of the Common Shares (based on the Cdn.\$3.84 closing price of the Common Shares on TSX on that date). The accounting fair values are \$89,770 for Geoffrey Handley and for Rex McLennan and \$44,885 for Mario Szotlender, calculated in Cdn.\$ and translated to U.S.\$ based on the exchange rate of Cdn.\$1.00=U.S.\$0.9351 on December 31, 2013.

This methodology was chosen to be consistent with the fair value as determined in accordance with international accounting standards. The fair market value was calculated in Cdn.\$ and translated to U.S.\$ at the exchange rate in effect on the date of grant.

(4) \$15,591 of this amount was settled with an aggregate of 3,631 DSUs granted under the DSU Plan.
